

EUROPEAN SOCIETY FOR HYPERTHERMIC ONCOLOGY (ESHO)

COUNCIL: R.D. Issels (Germany), S. Osinsky (Ukraine), O. Ott (Germany), P. Rehak (Austria), V. Milani (Germany), G.C. van Rhoon (The Netherlands), A. Westermann (The Netherlands), S. Dell'Oglio (Italy), J. Gellermann (Germany).

www.esho.info

Rotterdam, January 2007

Dear Sir/Madam,

ESHO would like to use this opportunity to inform you about the European Society for Hyperthermic Oncology.

ESHO is the official society of European researchers active in hyperthermia. The objects for which the Society is established are (see also our web site: <http://www.esho.info>):

- To promote for the public benefit, fundamental and applied research in physics, engineering, biological and clinical sciences related to the use of hyperthermia in cancer therapy.
- To facilitate integration and exchange of information between different disciplines in the study of the biological effects of heat in the treatment of cancer either alone or combined with other cancer treatment modalities.

Membership of the ESHO entitles you to the following:

- Subscription to the International Journal of Hyperthermia. Included in the membership fee.
- Reduced registration fee for the annual scientific meetings of the ESHO. The next annual meeting will be in Prague June 14 - June 16, 2007 (see <http://www.esho.info>).
- Reduced registration fee for the four yearly international meetings of the International Association for Hyperthermic Oncology. Together the Society of Thermal Medicine (STM) of the USA, the Asian Society for Hyperthermic Oncology and the ESHO forms the International Association for Hyperthermia Oncology (IAHO).
- Subscribe to our internet information exchange channel. Send an e-mail to majordomo@radth.ruu.nl with the message "subscribe"
- Become a friend to all hyperthermia researchers.

The membership fee for 2007 is:

- normal members: Euro 100
- student members: Euro 50

To be eligible, a letter from the head of the department must endorse your *student membership*. The following special conditions account for the student membership:

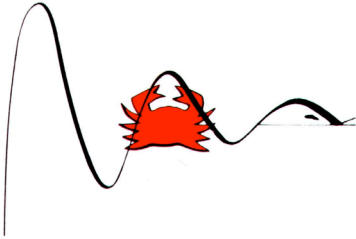

- It will be automatically converted into a normal membership after five years.
- At least one full ESHO membership exists within the department in which the student is working.
- The student member will not receive the International Journal of Hyperthermia, though access to the electronic version of the Journal will be provided.
- Any student member is automatically eligible for the ESHO student awards (€ 250, one per discipline: medicine, physics and biology) yearly granted during the ESHO annual meeting .

I hope to welcome you as a new ESHO member.

With best regards,
Gerard C. van Rhoon

President: R.D. Issels, Klinikum Großhadern, Medizinische Klinik III, Marchioninistraße 15, D-81377 Munich, Germany,
Secretary: Dr. G.C. van Rhoon, Erasmus MC, Dept. of Radiation Oncology, Hyperthermia Unit, Groene Hilledijk 301,
3075 EA Rotterdam, The Netherlands

ESHO office: Mrs. S. van der Sluis, c/o Erasmus MC, Dept. of Radiation Oncology, Hyperthermia Unit, P/O Box 5201,
3008 AE Rotterdam, The Netherlands
